

Could you save money by buying a prescription prepayment certificate?

If you know you will need to pay for multiple prescriptions, it may be cheaper to buy a prescription prepayment certificate.

This covers all your NHS prescriptions for the time period, including NHS dental prescriptions, no matter how many you need. Without a prepayment certificate, the NHS prescription charge is currently £9.65 for each prescribed item.

There are 3 prescription prepayment certificate (PPC) options to choose from:

1. The 3-month PPC costs £31.25 and will save you money if you need more than 3 prescribed items in 3 months.
2. The 12-month PPC costs £111.60 and will save you money if you need more than 11 prescribed items in a year. You can pay for this up front or in 10 instalments of £11.16
3. The hormone replacement therapy (HRT) PPC costs £19.30 and will save you money if you need more than 2 prescribed HRT items in a year.

Free meds and other health items

Some medications and health items are free for everyone. These include:

- Any medicine that is administered in hospital or NHS walk-in centres is free (not if they prescribe you something to take away)
- Prescribed contraceptives
- Condoms - visit the NHS find free condoms service: www.nhs.uk/Service-Search/other-services/Free%20condoms/LocationSearch/732 or contact Sexual Health Sheffield for advice 0114 226 8888
- Treatments for most sexually transmitted diseases
- Medication for Tuberculosis
- Some mental health conditions (if the medicine has been prescribed under a community treatment order)

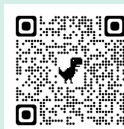

Is your family eligible for free milk, fruit, veg and vitamins?

If you're receiving a qualifying benefit and are pregnant or have a child under 4, you can get help to buy healthy food and milk.

If you're eligible, you'll be sent a Healthy Start card with money on it that you can use in some UK shops to buy milk, fruit, and vegetables. Women can have Healthy Start vitamin tablets while they're pregnant and up to their baby's 1st birthday. Children can have free Healthy Start vitamin drops from the age of 4 weeks until their 4th birthday.
